

Zoning

The majority of properties in the Town of Halton Hills are subject to one of two forms of land use control: Zoning By-law governs the erection of buildings and the use of land, or the property is subject to the land use regulations of the Niagara Escarpment Commission.
Zoning: 905-873-2601 ext. 2320.

The Zoning Section administers the Zoning By-laws and participates in the approval process of building permits and development applications.

Zoning services include:

- Assignment of municipal addresses
- Issuance of building and zoning compliance letters
- Review of building permit applications for compliance with:
 - Zoning By-laws
 - Other Applicable Laws
- Commenting on Planning Development Applications for:
 - Re-Zoning
 - Site Plan
 - Official Plan Amendments
- General inquiries about:
 - Zoning
 - Other Applicable Laws
 - Land Use and other related matters

How do I get a compliance letter and how long does it take?

A compliance letter is often required as a condition of a property sale to determine if there are any outstanding permits or infractions.

Submit a written request to the Infrastructure Services Department with the applicable fee for each property. Allow 10 working days for a response.

How do I obtain a survey of my property?

Copies of legal surveys are not provided. However, contact the Town's Freedom of Information Coordinator regarding information requests at 905-873-2601 ext. 2356
foi@haltonhills.ca.

How do I get relief from a provision of a Zoning By-law?

Relief may be granted by the Town by either a Minor Variance or by a Zoning Amendment. Approval of an amending by-law or a minor variance is required (and must be final and binding) before a building permit can be issued. Planning, Development and Sustainability Department: 905-873-2601 ext. 2291.

I would like to know the zoning of a specific property and its permitted uses.

There are three different area Zoning By-laws (2010-0050, 57-91 and 74-51) that apply to lands within the Town of Halton Hills. Zoning: 905-873-2601 ext. 2320.

What are the zoning standards for constructing an accessory building (such as sheds and garages)?

There are three different area Zoning By-laws that apply to lands within the Town of Halton Hills, which regulate the construction of accessory buildings. Standards regulating the height, size, location and setbacks are dependent upon the zoning of the property, the type of accessory building, and whether the lot is an interior or corner lot.
Zoning: 905-873-2601 ext. 2320.

What is the difference between the local Zoning By-laws and Niagara Escarpment Regulations?

Both regulate land use, but the Niagara Escarpment Planning and Development Act and Niagara Escarpment Development Control Regulation is a Provincial development control statute, which supersedes any local Zoning By-laws.

What is Applicable Law?

Applicable Laws are various relevant laws that have to be complied with before a building permit can be issued. The Ontario Building Code lists more than 40 Applicable Laws that govern the construction and demolition of buildings in this Province. Some of the Applicable Laws are:

- Conservation Authority Regulations
- Development Charges Act
- Heritage Act
- Local Zoning By-laws
- Niagara Escarpment Planning & Development Act

Permanent Signs Permit

What signs require a building permit?

Except for signs regulating traffic, signs in display windows, signs painted directly on the building, and signs subject to municipal approval, a building permit is required for the installation of all other permanent signs.

More information regarding Building Permits for permanent signs is available at www.haltonhills.ca/building/guides.php (Building Permit Application Guide).
Building Permit Coordinator: 905-873-2601 ext. 2924.

Respecting the Sign By-law requirements you may contact Municipal Law Enforcement Officer: 905-873-2601 ext. 2277.

Pool Enclosure Permits

Why is a pool enclosure permit required?

Under the Town of Halton Hills By-law No.2009-0028, owners of privately-owned outdoor swimming pools are required to erect and maintain enclosures around pools. "Privately-owned outdoor swimming pool" means any privately-owned body of water, in-ground, above-ground or on-ground swimming pool or hot tub located outside of a permanent building or structure and which can hold water exceeding 61cm (24 inches) in depth. A pond located in any rural or agriculturally zoned property is not included in this definition. A pool enclosure permit is required prior to the installation of a pool enclosure.

More information is available at: www.haltonhills.ca/building/guides.php (Guide for Swimming Pool Owners).

Registration of Two-Unit Houses

What Is A Two-Unit House?

In the Town of Halton Hills a Two-Unit House means a detached house, semi detached house or a row house containing two residential units. A residential unit consists of a self-contained set of rooms located in a building or structure that is used or can be used, as a unit. A residential unit contains kitchen and bathroom facilities designed for the exclusive use of the unit, and has a means of exit from the building (which may be shared with another residential unit). A common example is a basement apartment.

What are the requirements for registration of Two-Unit Houses?

Under the Town of Halton Hills By-law No. 96-174, the occupancy of a second dwelling unit in a Two-Unit House is not permitted, unless the house is registered as required by said By-law.

The registration process is designed to protect the owner, as well as the inhabitants, of the Two-Unit House from unnecessary hazards. Registration of a Two-Unit House legalizes its existence and ensures that a home complies with all applicable codes and standards.

More information is available at: www.haltonhills.ca/building/guides.php (Registration of Two-Unit Houses Guide).
