

Halton Hills Green Business Profile

The UPS Store (Georgetown)

About Our Company

We are the one stop shop for all your business printing and shipping needs. Whether you need copying and digital printing solutions, document services, great shipping options or our full-service packaging and mailbox services, you can get it done quickly at the Georgetown UPS Store.

We are a franchise that has operated at the same location in Halton Hills since 1998. We opened the doors as Mail Boxes Etc. and in 2006 we became The UPS Store.

What We're Doing

Lighting Retrofit

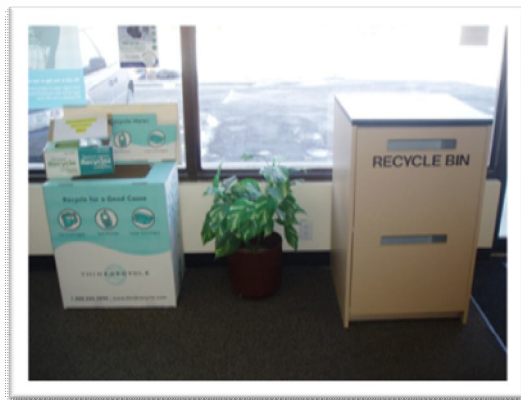

A Halton Hills Hydro representative came in and told us about a program to replace our current lighting with a more energy efficient system. We changed 16 lights to new energy efficient florescent lights.

Recycling Printer Cartridges

We take back printer cartridges from customers for recycling and send them to ThinkRecycle between 2 - 6 times a year.

Recycling E-Waste

We recycle e-waste through Halton Region's Take it Back! Halton Program. Photo below.

The UPS Store™

Our Inspiration to go Green

"Emily (of Practically Green Solutions) got me inspired with her enthusiasm and purpose. We try and recycle whenever we can. By doing this, we feel we are helping the environment, our community and saving money for our customers and ourselves."

Paper & Cardboard Recycling
The Blue Bins are put to good use!

The UPS Store (Georgetown)

Benefits

Our customers see that we have the recycling bins for paper, old cell phones and batteries, and also ink cartridges. They notice that we are trying our best to recycle where we can and by doing this we are reducing our carbon footprint.

We also suggest to our customers that they print double sided to save paper. In addition, we offer recycled stock for business card printing.
