

You can reach a larger target audience with our advertising solutions!

Advertising Options

Side Displays are located on each side of the bus. They are perfect advertising outlets to catch the attention of motorists and pedestrians. There are two (2) side panels available per vehicle for media rental every four weeks.

Interior Cards are smaller and are seen by the riders on-board. They line the tops of the transit windows. Two sizes of interior cards are available in regular card size and super card size. This type of advertising allows the rider more time to read the advertisement while on-board.
